DO YOU CATCH
THE IDEA ?

The business man who thinks he saves money by "worrying along" without a Directory is a poor economist. He may spend dollars' worth of time looking for a lost address, or verifying a fact which a good Directory would give him in a moment.

The Canadian Textile Directory

Is a complete hand-book of the textile manufacturers and dealers of the Dominion of Canada and Newfoundland. It gives all the cotton mills, woollen, knitting, carpet, silk, flax, jute, felt, rubber and paper mills, with the capacity of each mill, the kind of goods manufactured, names of selling agents, etc. It gives all the manufacturers of clothing, men's furnishing, ladies' wear, buttons, feathers; window shades, sails, tents and awnings; wall papers; hat and fur manufacturers and dealers; furniture and upholstery manufacturers and dealers; dealers in raw wool, furs and cotton; commission merchants and manufacturers agents in the textile and kindred trades; and the wholesale and retail dealers in the dry goods, hat and fur and kindred trades; the tariff of Canada, United States and Newfoundland, and many pages of statistics relating to the trade of the three countries. Now ready.

OUR MOTTO IS
QUALITY FIRST

The VANCOUVER WORLD.

...

Daily and Semi-Weekly.

- Two editions of the Daily are published each lawful day in the year, namely, at noon and at 4.15 p.m.
- The noon edition is printed and mailed to catch all out-going trains and steamers to points in the interior, as well as to the Island of Vancouver.

The Twice-a-Week Edition

- is published every Tuesday and Friday morning, and despatched to subscribers all over the world by the earliest out-going mails.
- The various editions of THE WORLD so thoroughly cover the advertising field in British Columbia, that advertisers who have tested it, continue and renew their contracts, so satisfactory are the results. THE WORLD, in this respect, occupies a field of its own.
- Advertisers utilizing its columns will reach all quarters and communities. In this respect it is unrivalled as an advertising medium.
- The circulation of the Daily approximates 4,500, and that of the Semi-Weekly 10,000. The aggregate circulation of these two journals for the week, is greater than that of all the other newspapers on the mainland of British Columbia combined.

Advertising rates can be ascertained either at the counting room or by mail.

## PREFACE.

When the whole population of this Province could be placed inside a Directory not taking up as much space as the City of Roseland does in the present issue, the Williams' Directory was to the front as it is now. This fact is cited for two reasons, viz.: To show the long standing and influential position that the Williams' Official B.C. Directory holds in this Province, and as a guarantee to the public that the proprietors of this most important work are alive to all interests that will advance the prospects of this magnificent and at the same time the Banner Province of the Dominion.

No other section has the climate, the resources, or the delightful and splendid natural water ways (free from severe

winters) that this province has, nor has any other portion of North America within its borders such magnificent mineral resources as we have here.

The people of the East do not yet realize the wealth and magnificence of British Columbia, that they will soon do so is assured, and it is gratifying to know that, nevertheless, both American, Canadian and English capital is now flowing in and being freely invested in our mineral, agricultural, fishing and other vast resources.

It is also a pleasing feature to be able to say that the population of the Province is rapidly increasing, as fully indicated by the large increase in the size of the present edition of the Directory.

## Province of British Columbia.

**T**HE PROVINCE has an area of 390,344 square miles, population about 200,000. The country is a quadrangle of territory, 700 miles long, by 400 wide, lying north of latitude 49 degrees, and west of the central core of the Rocky Mountains, extending along the Pacific Coast as far as latitude 55 degrees, and including a large number of adjacent islands. There is no mountain scenery in the world to compare with that of British Columbia.

### Mineral and Other Resources of British Columbia.

There is ample farming lands for thousands of settlers on the east coast of the Mainland, the northern and western coasts of Vancouver Island and the vast northern interior of the Province. Dairy farming is an important industry, fruits and cereals are grown successfully. The important factors stimulating the growth of the Province consists of its gold, silver, copper and coal mines, fisheries, lumber and excellent agricultural lands. The gold mines of Omineca, Cassiar, Atlin Lake and

Cariboo Districts, the gold, silver and copper mines of East and West Kootenay, Vancouver Island and adjacent islands and the west coast of the Mainland, B.C. The vast territory of the Yukon Basin to the north, as well as the great coal deposits on the Mainland and Vancouver Island, are not only suggestions but striking ones, of what untold and comparatively undeveloped wealth lies behind and are bound to prove the chief factors in the future prosperity of the Province. As an illustration of the progress of one line of industry the total salmon pack of 1876 amounted to 9,874 cases, while that of 1897 was over 1,000,000 cases. Again, and most important, the yield of gold in 1892 of \$2,000,000 has during 1898 reached \$18,000,000 (including the Klondike).

For further information the reader is referred to the various Government reports and the reports of the Vancouver Board of Trade and the British Columbia Board of Trade, as it is rather beyond the limits of this work to go fully into many important subjects of general interest.

Alberni, Mining Recording Division of Alberni, is situated at the head of Alberni Canal, on Stamp Harbour, V.I., 130 miles distant from Victoria, with which there is at present a tri-monthly communication by the C.P. N. Co.'s steamer. A stage running bi-weekly carries the mails to and from Nanaimo, 55 miles.

The harbour, one of the finest on the Pacific Coast, can accommodate the largest vessels afloat; has good wharf accommodation; the canal is free from obstructions of any nature.

The townsite is situated near the mouth of the Sumas River, and is surrounded by a growing agricultural settlement of about 300 inhabitants, and contains a Court House, Post Office, money order, telegraph office, three hotels, five stores, two butcher shops, barber, two livery stables, Presbyterian Church and Mission, two sawmills, etc.

There are resident here the Government Agent and Gold Commissioner, Indian Agent, clergyman, two doctors, Deputy Customs Collector and Provincial police officer.

Alberni is the distributing point for the West Coast Mining District.

As a sportsman's resort its fishing, shooting and boating cannot be excelled, and, having many good roads, it is easy for the pleasure seeker to admire its picturesque mountain scenery, streams and lakes. There is regular communication by steamer "Wallie," owned by the enterprising Mr. G. A. Huff.

## Central Park.

Postmaster, W. Maxwell Smith.

In the Dominion and Provincial Electoral District of New Westminster; is Vancouver's principal suburb, and is located 6 miles east of Carroll St. on the boundary between South Vancouver and Burnaby Municipalities, and about half way between Burrard Inlet on the north and the Fraser River on the south, at an elevation of nearly 400 feet above the sea level. The park comprises 200 acres of Government land, officially set apart for public recreation grounds and park purposes, the improved portion of which has already become a popular pleasure resort. The Presbyterian church, stores, post office, telephone office, tram station and ticket office are all located near the northwest corner of the park, and there is a large public school half a mile west and another one mile east of this point. Central Park has a daily mail service, and the pure air, freedom from fogs, cheapness of property and the excellent car service to and from the city make this place a most desirable residential district for those desiring a pleasant suburban home.

## Chemalrus.

Postmaster, E. J. Palmer.

In the Dominion Electoral District of Nanaimo, Provincial of Cowichan-Alberni, Mining Recording Division of Victoria, distant 52 miles from Victoria, with a population of 300. The principal mines near here are situated on Mount Sicker and Mount Brenton, and although considerable development work has been done, no shipment of ore has been made as yet. Experts pronounce the Auoka, Copper Canyon, Agnes and several others on which a good deal of work has been done, as showing up a large body of low grade ore, and that mineral deposits in the whole section are exceptionally promising. The chief industry in addition to mining is lumbering, the mills of the Victoria Lumber and Manufacturing Co., Ltd., being situated here. There are three hotels, two stores, three churches and two schools.

Sardis is three miles south from Chilliwack and also has a daily mail from that office. Cheam is four miles east and Rosedale eight miles east from Chilliwack, both these offices have tri-weekly mails from Chilliwack.

## Chilliwack.

Postmaster, Samuel Mollard.

In the Dominion Electoral District of New Westminster, Provincial of Chilliwack, the county town of the riding of Chilliwack is situated on the south of the Fraser about one mile from the river. Chilliwack is the oldest and most prosperous rural municipality on the Mainland of British Columbia. It extends along the Fraser river, which is its northern boundary, a distance of about 20 miles and a breadth between the mountains and the river of about 12 miles. The soil is a rich alluvial loamy one, and will produce crops either in cereals, fruits, roots, or vegetables, which will always retain for Chilliwack the fame of being the leading agricultural and fruit-growing section of the Province. Situated about 50 miles from New Westminster and 70 miles from Vancouver, with which cities it has daily communication by boat or rail. It is a desirable place to live in, having a climate similar to the South of England, and being a resort for tourists and sportsmen, and noted for its excellent gravel roads. The Government Experimental Farm and the famous Harrison Hot Springs are only about 12 miles from Chilliwack. There are nine churches and twelve schools in the municipality; there is also a court house, a post office, with

## Cumberland.

Postmaster, J. L. Roe.

This town, the eastern part of which is  
called Cumberland, is finely situated on  
the foot hills of the Burford Mountains,  
about 500 feet above the waters of the  
Straits of Georgia, and 60 miles north of  
Nanaimo. It is connected with Baynes  
Sound by a line of railway 13 miles in  
length. Its principal industry is coal  
mining. It turns out from 700 tons to  
1,000 tons per day of the best steam coal.  
This is transferred over the railway to  
Union wharf (Bayne Sound) to the  
ships, steamers and tugs, with scows  
awaiting to receive it. The fine coal is  
manufactured here into a good article of  
poke, which bids fair to grow into an im-  
mense industry of itself. Extensive bunk-  
ers are being built at the wharf in  
connection with the coal industry. Union  
is the market place for the Comox  
farming settlement, and contains a popu-  
lation of 3,000. It has one large depart-  
ment store, besides two general stores,  
four large hotels, two saw mills, two  
merchant tailoring establishments, vari-  
ous shops, such as dry goods, tin and  
hardware, metal, harness and saddlery,  
fivory, jewellery, stationery, bakeries,  
barber shops, photograph gallery, brass  
band, a graded school, four churches,  
and a newspaper. It has a fine water sup-  
ply, which is taken from Hamilton  
Creek, a mountain stream; this water  
has just been introduced into the place  
by an incorporated company, at an ex-  
pense of about \$30,000. The town is  
divided into two parts, The Camp and  
Cumberland, each having about the same  
population. Cumberland was incor-

## Grand Forks.

Postmaster, L. A. Manly.

An incorporated city in the Dominion Electoral District of Yale-Cariboo, Provincial Rossland, Riding of West Kootenay, and Mining Recording Division of Grand Forks, is beautifully situated on Kettle River, about 8 miles from the international boundary line and close to the famous Greenwood mining camp. The Grand Forks Miner, a weekly journal that is alive to the splendid prospects of the district, and Grand Forks in particular, is published here by Messrs. F. H. McCarter & Son. The whole district is more or less mineralized, and as development work on the numerous valuable mines in the immediate neighbourhood of Grand Forks progresses, the city is bound to grow into an highly important and prosperous place, depending not alone upon its mines, which in themselves, are sufficient to build up a large city, but, also upon the agricultural lands in the district adjacent, which are of the first order.

# CITY OF KASLO.

Postmaster, S. H. Green.

Population over 2,000

This city, incorporated in 1893, is situated on a fine townsite on the west side of Kootenay Lake, about 40 miles from Nelson, 15 miles from Ainsworth, and 20 miles from Sandon. In the Dominion Electoral District of Yale-Cariboo, Provincial of South Riding of West Kootenay, and Mining Recording Division of Ainsworth. Is the terminus of the Kaslo & Slocan Railway, and the headquarters of the International Navigation & Trading Co. Steamers ply twice daily to Nelson, and bi-weekly to Bonners Ferry, Idaho, 110 miles. The

C.P.R. steamer "Kokanee" runs daily from Nelson and weekly to Lardo, at the head of Kootenay Lake. Numerous mines are found in the Kaslo district, and the famous Slocan & Kaslo Silver Mines lie about 15 to 20 miles west. "The Kootenaian" is the name of the weekly newspaper. There are Anglican, Presbyterian, Roman Catholic, Methodist churches, and the Salvation Army have a mission here. There are two chartered banks, post office, telegraph, money order, savings bank and express offices, and last but most important factor in western civilization, a newspaper. Kaslo is the shipping, sampling and supply point of Kootenay Lake and the Slocan mines.

## Kelowna.

Postmaster, E. R. Bailey.

(See Okanagan Mission.)

Kelowna, geographically the hub of the Okanagan Valley, is beautifully situated on the east shore of Okanagan Lake, in the Dominion Electoral District of Yale-Cariboo and Provincial of the East Riding of Yale and Mining Recording Division of Vernon, on a broad expanse of almost level land. Mill Creek empties into the lake at this point and is fringed with a luxuriant growth of poplars, cottonwood and other trees. Further south Mission Creek finds its terminus in the same lake. This is the centre of the largest area of agricultural lands in the Yale District, and is called the Garden Town of British Columbia, from the numerous small holdings of from 8 to 40 acres, although there are some holdings consisting of hundreds of acres. Vegetation is very luxuriant and large crops of vegetables, hay, grain and fruits of nearly every description are successfully grown. Tobacco culture has been carried on for the past three years with marked success. Cattle and hog-raising are important factors in the success of the community. The mining industry as yet in its infancy, is bound to become of vast importance in the near future. The Agricultural and Trades Association is a valued institution, formed about five years ago. Communication is had to the markets of the province and especially with the mining districts, by the steamer Aberdeen, of the C.P.R. service, making daily trips, connecting with the C.P.R. line at Okanagan Landing and Penticton, at the foot of Okanagan Lake. A large amount of produce has been shipped within the past four years, and the business has hardly commenced. The Kelowna Shippers Union Co., Ltd., are the principal handlers of produce, together with individual shippers, of which there are many. The industries of the valley are represented by a saw and planing mill, which turns out all descriptions of work in that line; a grist mill; a pork-packing establishment, carried on by the Kelowna Shippers Union, which has turned out during the past two years a very superior article in hams, shoulders, spiced rolls, etc. A cigar factory has recently been established to manufacture cigars from the tobacco plant grown in the district. Schools are advantageously situated to suit the needs of their respective districts. Four religious denominations are

## Ladner.

Postmaster, Thomas McNeely.

Is one of the most important towns on the Fraser River, twelve miles below New Westminster, in the Dominion and Provincial Electoral District of New Westminster, Delta Riding, Mining Recording Division of New Westminster. Has post, money order and district telephone office. It is the main outlet for the settlements in the Delta Municipality. The regular mail steamers from Victoria and New Westminster call at this place daily; the Nanaimo and Vancouver steamers twice per week, and ferry boats make daily trips to and from New Westminster. The industries of this section are creamery butter, salmon canning, stock-raising and general farming. The district is well provided with schools and churches. The lands are all dyked and are without exception, the finest on the Pacific Coast.

# CITY OF NANAIMO.

Is situated on the east coast of Vancouver Island, about 73 miles from Victoria. In the Dominion Electoral District of Vancouver, Provincial of North Nanaimo, and Mining Recording Division of Nanaimo. Incorporated, 1874. There is daily communication by rail with Victoria over the E. & N. Railway, and by steamboat with Vancouver, New Westminster and other places. The valuable coal deposits form the principle source of wealth of Nanaimo, being the centre of the coal mining industry of the island. There is abundant supply of excellent timber and building stone of the finest quality. Iron, gold and copper veins have also been discovered in the immediate vicinity. The largest colliery here is owned

by The New Vancouver Mining and Land Company (formerly The Vancouver Coal Co.). A great number of men are employed here and the company are the largest coal producers on the Pacific Coast. The harbour is safe and commodious, and affords secure anchorage for shipping. There is a chartered bank, two newspapers (daily and weekly), and churches of the Anglican, Presbyterian, Methodist, Baptist and Roman Catholic denominations. Board of Trade offices, post office and custom house, telegraph, money order, savings bank, and telephone exchange. For list of Provincial and Municipal officials, City Council, etc., see separate headings.

# CITY OF NELSON.

Postmaster, J. A. Gilker.

Population, 5,000.

A city of remarkable growth, situated on a magnificent town site on Kootenay outlet, an arm of Kootenay Lake, 22 miles from its mouth. In the Dominion Electoral District of Yale-Kootenay, Provincial South Riding of West Kootenay, Mining Recording Division of Kootenay. Incorporated, 1897. The eastern terminus of the Columbia & Kootenay Railway, by which it has connection at Robson with the C.P.R. steamboats for Nakusp, and thence by rail to Revelstoke on the main line of the C. P. R. It has also connection by the Spokane Falls & Northern Railway with Washington and other American States. The city is the headquarters of the Government for the southern district of West Kootenay,

and the Government Agent, the Gold Commissioner, and Deputy Registrar of the Supreme Court have their office here. It is the centre of a rich mining district, the celebrated Hall mines, operating one of the largest smelters in British Columbia on Tread Mountain being but a few miles from the town. It is also the distributing point for supplies to the large number of mines throughout West Kootenay, and is Customs Port of Entry for Kootenay District. It will also be the western terminus of the Crow's Nest Pass Railway, on completion. There are four newspapers, and the Anglican, Presbyterian, Roman Catholic, Methodist and Baptist have churches here. Three chartered banks, post office, telegraph, money order and express offices; telephone exchange and all the conveniences of a modern city.

# REVELSTOKE.

In the Dominion Electoral District of Yale, Provincial North Riding of West Kootenay, mining recording division of Revelstoke, situated at the second crossing of the Columbia River. It is picturesquely located on a series of beautiful level flats, which afford plenty of room for its rapidly increasing business and population. It possesses churches, Anglican, Methodist, Presbyterian and

Roman Catholic, all with resident pastors, a public school, telephone and an electric light system. It is a great outfitting point for miners, and possesses numerous handsome stores, most of which do a wholesale business with the mining camps for fifty miles around the town. There are two papers, the Revelstoke "Herald," semi-weekly, and the Kootenay "Mail," weekly, both ably and enterprisingly conducted.

## CITY OF ROSSLAND.

This city of marvelous growth, about which cluster a number of rich mines, and with a population increasing year by year, is situated at the base of Red Mountain, seven miles west of the town of Trail. It is in the Dominion Electoral District of Yale-Cariboo, Provincial North Riding of West Kootenay, Mining Recording Division of Trail Creek; eight miles from the International boundary line. Traffic comes by the C. P. R. Co's. steamers from Arrowhead to Robson. It has also connection by the Red Mountain Railway with Northport, Washington, 18 miles

distant; thence to the south via Spokane, 150 miles distant.

Rossland was incorporated in 1897, and now has an electric light plant and a water works system. Telephone exchange and trunk line connections with Spokane, Nelson and Trail. The Baptists, Roman Catholics, Presbyterians and Episcopalians have all churches here, and there is also a branch of the Salvation Army. There is an opera house capable of accommodating about 1,200, and saw-mills, breweries, etc. A number of mining companies in the Kootenay district have their headquarters here. There are five banks, telegraph express, and money order offices.

## Ucluelet.

Postmaster, Jas. E. Sutton.

In the Dominion Electoral District of Vancouver, Provincial of Cowichan-Alberni, and Mining Recording Division of Alberni, a thriving settlement 110 miles from Victoria, at the western entrance of Barclay Sound, West Coast of Vancouver Island. Principal mines near here are the Crow, Tees, Highland Chief, Bee, Star, Latchbrook and Two Sisters. Chief industries, in addition to mining, are lumbering, fishing and sealing. There are two stores, a Presbyterian Mission and a Mission school. Harbor four miles long, half a mile wide, safe and commodious anchorage for any size of vessel, opening out to Pacific Ocean. Abundance of fresh water. The C.P.N. Co.'s mail steamer Tees calls both ways, leaving Victoria every ten days. The land adjacent to the harbor, comprising about 60,000 acres, is suitable for all the requirements of agriculture. There are two wharves, two stores, a saw mill and a mission school. With all these natural advantages it is one of the most desirable fields for intending settlers on the West Coast.

## Vernon.

Postmaster, C. E. Costerton.

(See also Okanagan Landing.)

Population 800.

Is situated in the one of the largest and richest agricultural districts in the Interior, an incorporated city on the Shuswap & Okanagan Railway, in the fertile Okanagan Valley, five miles from the head of the lake at Okanagan Landing, from which the steamer "Aberdeen" plies to Kelowna and Penticton, 76 miles distant, from whence the New Boundary Creek Mining Region is reached. Vernon is a lovely spot and the whole country round is almost like an earthly paradise. In this district sportsmen will find an abundance of large and small game, including caribou, bear, deer, bighorn and mountain goats. The Earl of Aberdeen, late Governor-General of Canada, has a large fruit ranch five miles east of Vernon. In the Dominion Electoral District of Yale-Cariboo, Provincial East Riding of Yale, and Mining Recording Division of Vernon. There is a chartered bank here and an ably conducted newspaper, the "Vernon News," and "Okanagan Farm, Live Stock and Mining Journal." There are Presbyterian, Methodist, Roman Catholic and Anglican churches; post office, telegraph, money order, savings bank and express offices. Mails daily.

## Wellington.

Postmaster, Theo. Bryant.

(See also East Wellington and Northfield.)

Population about 3,000.

Is situated about five miles from Nanaimo and about three miles from Departure Bay; the shipping point where vessels of all sizes can be loaded at any

time of the tide. It is also the northern terminus of the E. & N. Railway, by which there is daily communication with Victoria, about 80 miles distant. Is in the Dominion Electoral District of Vancouver, Provincial of North Nanaimo, Mining Recording Division of Nanaimo, and is incorporated. It is altogether a colliery town; the coal being shipped to all parts of the Coast, and also commands high prices on the California market. There are hotels, boarding houses, general stores, and an opera house; post office; a popular newspaper, "The Wellington Enterprise," is published here; telegraph, money order and Savings Bank; mails daily.

# CITY OF VICTORIA.

The beautiful and charmingly situated Capital of British Columbia stands on the southern extremity of Vancouver Island, overlooking the Straits of Juan de Fuca and the entrance to Puget Sound. The magnificent snow-capped Olympic Mountains are to be seen across the Straits, and away to the east the white-peaked top of Mount Baker. The city has many of the characteristics of an English town, the climate being compared to that of the south of England. The tasteful, and in many cases, splendid residences of the people testify to a refinement not usually found in colonial cities. Established originally as a post of the Hudson's Bay Company, who at that time practically owned Vancouver Island, Victoria gradually became the centre of trade for all parts of the Province. The gold excitement of the Fraser River in 1858 brought thousands of miners to British Columbia, and in a short time Victoria became a prosperous city. In 1862 it was incorporated. Various kinds of minerals are to be found on Vancouver Island, and many valuable properties are being worked at the present time. The growing importance of the coal mines, which have been successfully worked for years, is to be noted, and in this connection also the manufacture of coke.

As a shipping port, Victoria does a very large business, and according to Customs returns ranks fourth port in the Dominion. Shipping, manufacturing and trading interests all mark it out as the chief city in the Province. As the seat of the Legislative Assembly it has a distinction all its own, while the magnificent Parliament Buildings, erected at a cost of \$1,000,000, are amongst the handsomest in America. The splendid pile of buildings for the new Post-Office and Custom House

has just been completed. The large amount of capital invested in the capacious business blocks recently erected testifies to the increasing prosperity of the city. The commodious and handsome block on Government street now under construction for Messrs. Weiler Bros., will give additional credit to a city which has already so many splendid buildings.

Victoria as a health resort has numerous attractions, and many people who dislike the winters of the interior make this beautiful city on the Pacific Coast their home. The tourist also will find many features of interest, and capital shooting is to be had in the neighborhood. There are delightful drives round about the city, and the lovely bays which indent the coast-line are a never-ending source of pleasure. The view from Beacon Hill Park across the Straits to the mountains of the Mainland is very fine.

The Municipal government of the city is vested in the Mayor and nine Aldermen, elected annually. The city owns the water works and the street electric lighting. There is also an efficient Fire Brigade. The assessed value of property and improvements belonging to the city is \$16,829,100. The annual receipts from all sources amount to \$370,000, while the net liability of the city comes to about \$1,500,000. There is an electric car system which extends as far as Esquimalt Harbor (three miles from the centre of the city), the British Naval Station for the North Pacific Squadron. Here there is a large graving dock capable of accommodating the largest class of vessels, arsenal, naval shorehouses, etc. Arrangements are being made whereby extensive barracks and fortifications are to be erected here, which will be of such a formidable nature as to make Esquimalt one of the greatest fortresses of the world—

the Gibraltar of the Pacific Coast. The plan contemplates the equipment of a store, repair and supply station second to none in the Empire; the building and manning of forts capable of defending this depot against any force that could be brought against it by sea or land; the providing of docks large enough to receive the best and biggest examples of marine architectural skill, and the establishment of barracks, a service prison, and other necessary buildings for the use and benefit of the numerous soldiers and sailors who will be required to hold the forts and man the ships of the station.

There are five hospitals, including the Royal Jubilee Hospital, erected to commemorate the Jubilee of Her Majesty the Queen, and the Saint Joseph's, under the care of the Sisters of St. Ann.

There is daily communication by steamboat with Vancouver and with Puget Sound ports. To New Westminster three times a week, and about every five days for San Francisco. Steamers for Japan, China, Hawaiian and Fijian Islands, New Zealand and Australia stop here. Victoria is one of the principal points of departure on the coast for the Klondike, Adlin and other northern gold fields, and an important outfitting headquarters for miners and prospectors.

For churches, schools (public and private), banks, theatres, public halls, Free Library, Natural History Museum, etc., see alphabetical list, and for general information in regard to Government departments, Government officials, etc., see Provincial information at beginning of Directory.

The public are cautioned against post-  
ing anything but letters in the street  
letter boxes, as the forcing of news-  
papers, etc., prevents letters from being  
safely deposited in the box. Collections  
are made from letter boxes at 11 a.m.  
and 8 p.m., in time for despatch by the  
principal mails. Letters with valuable  
contents must not be posted in letter  
boxes, but should be taken to post office  
and receipt obtained therefor.

On Sunday there is only one collec-  
tion from the boxes, at 9 p.m.

There is a general delivery through-  
out the city twice daily, commencing at  
8 a.m. and 3 p.m.

## \* VANCOUVER CITY

This beautifully situated and thriving commercial city, the terminus of the longest railway line in North America, possesses one of the most magnificent harbours on the Pacific Coast, one that will accommodate in perfect safety the largest ships of any navy in the world, the entrepot of the Oriental, and it may be said, of all the Western trade, in connection with Australia, New Zealand, China and Japan by the palatial and fast steamships of the C.P.R. Royal Mail line, and last, but not least, the city offers most excellent educational advantages, as well as society and social influences of the very best class. Clubs and hotels, halls and other modern features are incentives to those seeking a place of residence.

Burrard Inlet, on the extremity of which this modern city is built, obtained its historical name from Sir Harry Burrard of the Royal Navy, in the time of George IV.

The buildings are all of modern construction, and nearly all granite and

brick, and are some of the handsomest of any city in Canada, many having been erected during 1898. The streets are uniformly laid out and well paved. There is a magnificent electric lighting plant and superb water supply. The vast mineral resources of the north and east, and the natural products of the district, lumber, fisheries, etc., combined with the manufacturing and trading interests will eventually mark Vancouver as one of the most important centres in the Dominion of Canada.

Few cities have more beautiful scenery in their immediate neighbourhood than this, while Stanley Park, with its giant trees, 200 and 300 feet high, is a delightful place, where one can always enjoy the beauties of nature.

Across the Inlet, some two or three miles in width, are seen the Indian Mission of the Roman Catholic Church, North Vancouver and the great Moodyville Mills, while behind all are the mountains, stretching in a magnificent line of grandeur, from west to east, in all their majestic beauty.

\*The names, removals, and new addresses having been taken up to the end of the year, hence the reason for Vancouver not appearing in alphabetical order.

## CITY OF New Westminster.

Is located on the north bank of the Fraser River, 12 miles from Vancouver. It is beautifully situated on the sloping hillside overlooking the river, the main branch as well as the North Arm.

The Fraser Valley is by long odds the best farming section in the Province, which gives to New Westminster a great advantage in this respect over any other city on the Coast.

It is the fresh-water terminus of the Canadian Pacific Railway and the B.C. terminus of the Great Northern Railway, reached over the Westminster Southern Railway, giving the city connection with the United States in this way, as well as the C.P.R. Mission-Sumas branch. There is daily steamboat communication with all important points between Steveston and Chilliwack, a distance of about 80 miles, also a regular service with Vancouver, Victoria and Nanaimo. The Fraser River is navigable by large ocean steamers. New Westminster is connected with

Vancouver by the best electric car system in America. It is an important industrial city, having large saw mills, salmon canneries, iron works, flour mills, the Automatic Canning Co.'s Works, etc. The Provincial Penitentiary is located here, also the Provincial Asylum for the Insane, the Royal Agricultural Exhibition Buildings and Grounds, where the leading exhibitions of the Province are held every fall. The Columbia Methodist College, Central School, daily and weekly newspapers and all the commercial and social matters required to make a large and prosperous city.

By a disastrous fire which occurred in the early hours of Sunday, 11th September, 1898, the business portion of the city was completely wiped out, and the city practically swept away. The energetic manner, however, in which the bankers, merchants and others have set to work will soon result in restoring the Royal City to its former, if not greater, proportions.

## Atlin City.

Is situated on Atlin Lake, about 120 miles from Skagway, in the provincial district of Cassiar and the Atlin Lake Mining District. It is reached from Victoria by steamer to Skagway, thence by the White Pass and Yukon Railway for about twenty miles, then by trail via Log Cabin and Otter Lake.

Another route is from Skagway to Lake Bennett by train, and wagon road 49 miles, and then from Lake Bennett to Atlin Lake by water and trail 120 miles.

Until about nine months ago little was known about the mineral wealth of the country, and now it is dotted with eager prospectors after the precious metal.

## Bennett City.

Postmaster, F. Turner.

Population about 250.

Bennett City is situated at the head of Bennett Lake and the foot of Linderman Rapids. It is approached by the Chilcoot and Skagway trails, and is about 30 miles from the present terminus of the White Pass Railway and 120 from White Horse Rapids.

It is the headquarters and camping ground of the Klondike and Atlin Lake miners, where they cache their provisions and build their boats previous to starting on the water trip for Dawson and Atlin. It is also the headquarters of the Bennett Lake and Klondike Navigation Co., and the White Pass Railway.

## Dawson City, N.W.T.

Postmaster, Isaac J. Hartman.

Population about 20,000.

This wonderful city, the furthest north of any town on the Pacific side, has made marvelous progress since the first gold excitement in the British Yukon of two years ago. The townsite is regularly laid out and comprises an area of 160 acres. A broad avenue separates the town from the Yukon. It is situated at the confluence of the Klondike and Yukon rivers, about 1,650 miles from the mouth of the latter. Most of the houses are constructed of logs, hewn so as to rest flat on each other.

The immense yield of gold has been the first and most important incentive to the rapid growth of the Klondike region and particularly that of Dawson City. It is estimated that at least \$8,000,000 in precious metal is about the yield of this gold-bearing section of Canada for the last twelve months.

Victoria and Vancouver are the principal Provincial outfitting ports for Dawson, and from whence steamers depart direct to St. Michael's or to Skagway, where miners and prospectors

## Skagway.

Postmaster, W. B. Sampson.

Population about 6,000.

Is what may be called the metropolis  
of Alaska, quite romantically situated  
beneath the overshadowing mountains  
about two miles south of the head of  
Chilcoot Inlet and four miles from  
Dyea. When the reports of the dis-  
covery of gold first came out Skagway  
was a very desolate lonely place, with-  
out accommodation of any kind, and  
freight had to be landed on the beach.  
Now it has four large and commodious  
wharves, a splendid water system, elec-  
tric light plant, churches of different  
denominations, two newspapers, branch  
banks and large general merchandise  
and grocery stores. It is the starting  
point of the Skagway and White Pass  
Railway. Although at present in Unit-  
ed States territory it is generally con-  
ceded that it is a portion of the British  
Yukon. Post office and money order  
office.

JOHN IRVING, Manager, VICTORIA, B.C.

Shoal Bay is the centre of the mining district which will soon be one of the most flourishing in the Province. There are two stores, two hotels, one the property of the Shoal Bay Trading Co., and the other, the Thurlow Hotel, adjoining the premises of Messrs. Archibald and Company, general store-keepers and traders; also the assay office of Mr. J. B. Farquhar. It is the distributing point for the mines in the Phillip's Arm, Fanny Bay, Frederick Arm, Valdez Island, Estero Basin, Channel Island, Thurlow Island, Cardero Channel, Longborough Inlet and outlying points. This place is rapidly growing in importance. The mines are noted for the abundance of copper, galena and iron pyrites, most of them carrying gold and many assaying high in the precious metals. Very large developments are taking place and experts prophesy a brilliant future for the district.

## Columbia.

(Formerly Upper Grand Forks.)

Postmaster, P. Wright.

This place was formerly Upper Grand Forks, in the Dominion Electoral District of Yale and Cariboo, Provincial East Riding of Yale. It is beautifully situated on the Kettle River, near the junction of the North Fork, two miles from the International Boundary line, and at present, and for some years to come, will be the transfer point to the Republic Camp, Wash.

Behind the town and tributary to it are the celebrated mining camps: White's or Central, Wellington, Summit, Brown's, Evan's, Greenwood, Knight's Pass Creek, Hardy Mountain and Seattle. These camps are traversed by enormous mineral lodes, phenomenal in size and containing high percentages of copper, with appreciable gold values.

It is surrounded by the largest extent of fertile pasture land in Kootenay or Southern Yale Districts.

The "Review" is a weekly journal, fully up-to-date as a live paper, and edited by W. C. McDougall.

The place will shortly be incorporated. The C.P.R. located their leading station here for this district, and in June the trains are expected to be running in from the East.

The place is growing rapidly, and it is fully expected that in a very few years it will be the largest inland city in the Province.

All stage lines from East and West connect here daily.
